

## The Phoenix Number

- a Let us introduce you to  
b The great Phoenix number  
b That's for sure superior  
a To the Pi number, you studied too.
- a It was invented by Carroll who  
b Was an awesome writer  
b That revealed the story of Oliver  
a Known by quite a few.
- c It gathers every single digit  
d And multiplied by multiples of three  
c Forms a number composed of three digits repeated in it
- d At some point it grows so big , big as a palm tree,  
c That it gets out of reach for a midget  
d As you can see

Clémence, Colin
